History

It was mainly due to the Romans, who valued the up to 68 degrees hot springs, that Baden-Baden became famous. Around 80 A.D. they founded an urban settlement and several baths where today's city center is situated. Since 1306 the hot springs have been used for thermal baths. The first resort tax was established in 1507 and a Resort Director was in charge of the upcoming resort business. At the end of the 18th century, Baden-Baden was rediscovered as a spa town by the Romans. Many stately guests have turned this place into the summer capital of Europe. Grand hotels, the Kurhaus and the Casino were established. After World War II, Baden-Baden became the domicile of the French government department and headquarters of the French armed forces.

Baden-Baden and surroundings

The Friedrichsbad

Take a step back in time and get a sense of the history, culture and atmosphere of over 130 years of bathing tradition. Here you can enjoy Roman bathing culture combined with Irish hot air baths. The temperature changes are coordinated to be beneficial for body and mind.

International Horse race

International horse racing has been taking place since 1858 on the racecourse in Iffezheim. Three times a year you can experience an elegant atmosphere, neck to neck racing and nail biting suspense. Relax at one of the most beautiful racecourses in Germany. The racing calendar starts with the Spring Meeting (end of May/beginning of June), followed by the Grand Festival Week (end of August/beginning of September) and rounded off by the Sales & Racing Festival (end of October).

Casino Baden-Baden

The Casino Baden-Baden combines casino style, history, exclusivity and elegance. It is one of the oldest and most traditional casinos across Europe. Roulette has been played here for over 250 years. The unique Casino was created during the Belle Epoque by Edouard BÉnazet. And still today, 200 years later, the Casino Baden-Baden is one of the world's most beautiful casinos.

Cultural Mile Baden-Baden

Can you imagine a town having all its art and cultural treasures along one long lane? In Baden-Baden, it is not a question of imagination; it is reality! So come and discover all the fascinating milestones that line the Baden-Baden Cultural Mile. Starting on the western edge of the town with the Festspielhaus, the Cultural Mile extends eastwards, past the classically styled Trinkhalle and Kurhaus, to the neo-Baroque Theater and the Museum of 19th Century Art and Technology (LA8). It then continues its journey through the picturesque town gardens, parallel to the famous avenue, the Lichtentaler Allee, towards the Staatliche Kunsthalle (State Art Gallery), the Museum Frieder Burda and the adjacent Stadtmuseum (Baden-Baden Museum). The Cultural Mile reaches its conclusion in the eastern outskirts of the town with the 700 year old Kloster Lichtenthal (Lichtental Abbey) and the Brahms' House.
